

K-LOVE radio serves me and my family by providing something to listen to that is of a positive influence, and that is an encouragement in our daily lives. We believe that this is also necessary to our community, as there is so much negativity going on around us. K-LOVE also gives us the chance to support this effort of getting encouragement out to our community by being a "listener supported" station. We feel involved in reaching our own community around us, and this has taught us and our children this very important life lesson. Should this station be displaced, we would not have this encouragement, or the teachings we hear on K-LOVE. It is our belief that, should K-LOVE be displaced, our family's life, and that of our community, would greatly lack this positive influence that is so desperately needed. Thank you, DeAnna Kohl
